

Vitreo-Retinal Associates P.C.

Amsler Grid

Testing Instructions

1. Test one eye at a time, cover the other eye.
2. Perform the test in a well-lit area.
3. If you wear glasses for reading, wear them for the test.
4. Holding this sheet approximately 14 inches away, look directly at the center point on the grid.
5. Note any abnormalities or alterations that you notice in the grid, remembering to keep your focus only on the center point of the grid.
6. If you notice any of the following changes, call our office as soon as possible.
 - holes or blank spots
 - blurred spots or distortions
 - curved or pinched lines
